Overview of Families First Coronavirus Response Act

Paid Sick Time

Requires employers with fewer than 500 employees and government employers to provide employees two weeks of paid sick leave, paid at the employee's regular rate, to quarantine or seek a diagnosis or preventive care for coronavirus; or paid at two-thirds the employee's regular rate to care for a family member for such purposes or to care for a child whose school has closed, or child care provider is unavailable, due to the coronavirus.

- Full-time employees are entitled to 2 weeks (80 hours) of paid sick leave.
- Part-time employees are entitled to the typical number of hours that they work in a typical two-week period.
- The Act, and the requirements under the Act, expire on December 31, 2020.

Extended Paid Leave

Employees of employers with fewer than 500 employees and government employers, who have been on the job for at least 30 days, have the right take up to 12 weeks of job-protected leave under the Family and Medical Leave Act to be used for any of the following reasons:

- To adhere to a requirement or recommendation to quarantine due to exposure to or symptoms of coronavirus
- To care for an at-risk family member who is adhering to a requirement or recommendation to quarantine due to exposure to or symptoms of coronavirus
- To care for a child of an employee if the child's school or place of care has been closed, or the child-care provider is unavailable, due to a coronavirus
- After the two weeks of paid leave, employees will receive a benefit from their employers that will be no less than two-thirds of the employee's usual pay.
- The Act, and the requirements under the Act, expire on December 31, 2020.

IMPORTANT NOTE!

This overview is a summary only to facilitate the configuration guide and instructions provided. It should not be viewed as definitive or legal guidance on employers' obligations.

TLM & Accruals Configuration – Full Time Employees

The new legislation provides a 10-day mandate for full-time employees to receive full pay or two-thirds their regular rate of pay, depending on the reason for taking time off. It also provides a 12-week expansion of FMLA where employers pay full-time employees 2/3 their rate of pay. This is in effect until December 31, 2020 when the requirements will reset, pending another governmental announcement of emergency requirement, for the subsequent year.

Pre-Requisites

The configuration shown requires the following to be enabled in your company:

- TLM module enabled
- Accruals functionality enabled
- Rates functionality enabled and in use (if not using rates in our application, manual calculations may be required)

Step 1: Counters (PC2) & Pay Categories (PC1)

This allows the proper Counter/Pay Category to be used to track the time taken in the timesheet and also flow to payroll properly. This also allows the proper rate multiplier to be defined for each type of Leave. Full Rate of Pay (1.0) or 2/3 rate of pay (0.67). We recommend something similar to the following:

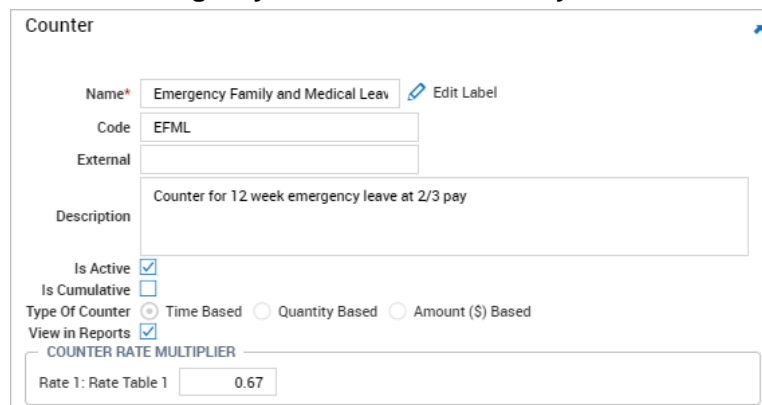

- Emergency Family and Medical Leave
- Emergency Paid Sick Leave at Full Employee Regular Rate
- Emergency Paid Sick Leave Two-Thirds Regular Rate

Counters – Pay Calculations 2.0

Company Settings > Time & Labor Setup > TLM List Definitions > Counters

If using rates, counters can be set with a rate multiplier to pay hours at 2/3 pay rate and full pay rate.

12 Week Emergency Leave – 2/3 Rate of Pay Counter

The screenshot shows a configuration form for a counter. The fields are as follows:

- Name***: Emergency Family and Medical Leave (with an 'Edit Label' link)

✕	Emergency Paid Sick Leave 1.0	Y	1.0000	Pay Category for 10 day paid sick leave at full pay	EPSL1.0

Step 2: Time Offs

Company Settings > Global Setup > Time Offs

This allows the time off categories to be requested and time off time to be tracked properly in the timesheet and against accrual balances. We recommend something similar to the following:

- **Emergency Paid Sick Leave** – (parent time off) paid time off for 10 days at full pay or two-thirds rate of pay, including child time offs to further define the type and pay.
- EPSL Regular Rate (time off to be selected when employees should be paid at regular rate of pay)
- EPSL Two-Thirds Regular Rate (time off to be selected when employees should be paid two-thirds regular rate of pay)
- **Emergency Family and Medical Leave** – 12 weeks job protection and 2/3 rate of pay for employees

Parent Time Off – Emergency Paid Sick Leave

Set the *Default Hours In a Day*, ensure *Visible* is checked. If using counters, add the *Default Counter*.

Child Time Off – Emergency Paid Sick Leave at Two-Thirds Regular Rate

Set up a time off to track the time that should be paid at 2/3 rate of regular pay for employees. Set the *Default Hours In a Day*, ensure *Visible* is checked, check *Allow Time Allocation Toward This Time Off*. If using counters, add the *Default Counter*. If employees are allowed to request time using this time off category, check *Time Off Can Be Requested By Employee*.

The screenshot shows the 'Time Off Properties' configuration page for the 'EPSSL Two-Thirds Regular Rate' category. The 'Time Off Selector' on the left shows 'EPSSL Two-Thirds Regular Rate' selected. The main configuration area is titled 'Time Off Properties' and includes a 'Main' section with the following fields:

- Path:** Emergency Paid Sick Leave > EPSSL Two-Thirds Regular Rate
- Name:** EPSSL Two-Thirds Regular Rate (with an 'Edit Label' link)
- Abbreviation:** (empty field)
- Leave Reasons:** (empty field)
- Description:** 4. is caring for an individual subject to an order described in (1) or self-quarantine as described in (2)
6. is experiencing any other substantially-similar condition specified by the Secretary of Health and Human Services, in consultation with the Secretaries of Labor and Treasury
- External Id:** (empty field)
- Payroll Code:** (empty field)
- Default Counter:** Emergency Paid Sick Leave Two-Thirds Regular Rate (dropdown menu)
- Visible:**
- SETTINGS:**
 - Allow Time Allocation Towards This Time Off:
 - Time Off Can Be Requested By Employee:
 - Include Time Off in Scheduled Hours:
 - Default Hours In a Day: 8.00 (text input)
 - Populate Scheduled Days Off:
 - Time Off Priority: 50 (dropdown menu)

Emergency Family and Medical Leave Category

Set up a time off to track the 12 weeks of job protection at 2/3 rate of pay for employees.

Set the *Default Hours In a Day*, ensure *Visible* is checked, check *Allow Time Allocation Toward This Time Off*. If using counters, add the *Default Counter*.

NOTE: This time off is used to pay employees already out on a Leave case, so the *Time Off Can Be Requested By Employee* setting should be unchecked.

The screenshot shows the 'Time Off Selector' on the left with a tree view containing categories like Bereavement, Comp Time, Emergency Family and Medical Leave, and Vacation. The 'Time Off Properties' panel on the right is configured for 'Emergency Family and Medical Leave'. The 'Main' section includes fields for Name, Abbreviation, Description (5. is caring for a child whose school or place of care is closed...), External Id, and Payroll Code. The 'Default Counter' is set to 'Emergency Family and Medical Leave' and 'Visible' is checked. The 'SETTINGS' section includes: 'Allow Time Allocation Towards This Time Off' (checked), 'Time Off Can Be Requested By Employee' (unchecked), 'Include Time Off in Scheduled Hours' (unchecked), 'Default Hours in a Day' (8.00), 'Populate Scheduled Days Off' (unchecked), and 'Time Off Priority' (50).

Step 3: Timesheet Profiles & Time Off Request Profiles

For Timesheet Profiles: *Company Settings > Profiles/Policies > Timesheets*

For Time Off Request Profiles: *Company Settings > Profiles/Policies > Timesheets* then select *Time Off Request Profile* in the *Time Off Settings* widget.

Customized Time Off Lists in Time Off Request Profiles

If you wish to limit the types of time offs employees can request, you can set this in the Time Off Request Profile associated with their Timesheet Profile. In the *Available Time Off* section, select *Custom List* and add a list of time offs employees can use to request time off.

For any time off added to the list, ensure each time off configuration is set with the *Time Off Can Be Requested By Employee* setting checked.

The screenshot shows the 'Time Off Request Profile' configuration on the left and a 'Time Off Lists' table on the right. The profile is named 'Default' and is active. The 'Available Time Off' section has 'Custom List' selected. The 'Time Off Lists' table shows the following items:

	Name	# Items

Preventing Negative Balances

To prevent Emergency Paid Sick Leave time from going negative, the following rules and settings are suggested.

Timesheet Profile Rule – Time Off Exceeded

This rule will prevent managers from manually adding time that would result in a negative balance. It is available in categories for *On Approval*, *On Save*, and *On Submit*. You can have the rule in all three categories but to simply your configuration, we recommend adding it to the *On Save* category, as that catches most user practices of saving timesheets.

The rule for all categories has the option to generate a notification when the rule is triggered. Notifications can be set up under *Company Settings > Global Setup > Notifications*.

On Save

Set the *On Save* rule to generate an error if entered time exceeds the balance by 0 hours. We recommend adding the rule to only include only the *Emergency Paid Sick Leave Act* time off (or the name you gave this time off.) If desired, you can add an additional rule for your other time offs.

- Set the manager levels enabled in your company (1-5, plus Payroll Admin). Also ensure you enable *Check Unapproved Requests* to catch all time offs.
- This rule has an *Applies To Employees* setting that you should enable if employees are allowed to enter their own time.

The error will generate when a manager or employee enters hours that will cause the balance to go negative when saving the timesheet.

The screenshot shows the configuration for the 'Time Off Exceeded' rule. It includes a 'Display' dropdown set to 'Error', a condition 'If Entered Time Off Exceeds Current Balance By' with a value of '0' and a unit of 'Hours'. There are two radio buttons: 'Apply To All Accrued Time Off Categories' (unselected) and 'Apply Only To Following Time Off Categories' (selected), with a search box containing 'Emergency Paid Sick Leave Act'. A 'MESSAGE TO DISPLAY' box contains the text: 'Remaining accrued balance for {TimeOffName} would be negative: {AmountExceededBy}.'. Below this are several checkboxes: 'Generate Notification When This Rule Is Triggered' (unselected), 'CHECK ESTIMATED BALANCES' (unselected), 'Check Unapproved Requests' (checked), 'Check Future Approved Time Off' (unselected), and 'Applies To Employees' (checked). At the bottom, 'Applies To Managers On Level:' is set with checkboxes for 'None', '1', '2', '3', '4', '5', and 'Payroll Admin', all of which are checked.

Timesheet Off Request Profile Setting – Use Timesheet Rules for Validation

In the Time Off Request Profile, the *Use Timesheet Rules For Validation* setting will ensure that the system validates your rules based on those set up in Timesheet Profiles and not in the Time Off Request Profile.

We recommend if you are using the *Time Off Exceeded* rule in Timesheet Profiles, you also check these settings in any associated Time Off Profile.

This setting is available in two places in the Time Off Request Profile: *Submit Settings* widget and *Approval Settings* widget.

The screenshot shows two widgets: 'Submit Settings' and 'Approval Settings'. In the 'Submit Settings' widget, the checkbox 'Use Timesheet Rules For Validation' is checked and highlighted with a red box. The 'Approval Settings' widget also has the 'Use Timesheet Rules For Validation' checkbox checked and highlighted with a red box. Below this, there is a 'CHECKS' section with a list of 11 checkboxes, all of which are checked: 'Employee Default Cost Centers Not Configured', 'Requested Day Is Company Holiday', 'Request Exceeds Employee Regular Day Hours', 'Hours (Any) Already On Timesheet', 'Hours (Time Off) Already On Timesheet', 'Request Will Result In Negative Accrual Balance', 'Accrual Profile Has 'Use First Balance' Configured', 'Requested Day Is For The Next Accrual Year', 'Requested Day Is For The Previous Accrual Year', 'Requested Day Is One+ Year(s) From Now', and 'Requested Day Is Blocked Out'.

Step 4: Accruals Rule Policy Creation

Company Settings > Profiles/Policies > Benefit Accruals

Creating a new Accruals policy in existing Accrual Profiles (or new Accrual Profiles) helps you grant paid sick leave and track the time taken.

- Add an *Emergency Paid Sick Leave* policy in existing profiles (or create new profiles and add policy rules)
- Accrual Policy Type: *System Maintained > Tenure Based*
- Time Off: *Emergency Paid Sick Leave*

Leave Module Configuration

The new legislation provides a 10-day mandate for full time employees to receive full pay and a 12-week expansion of FMLA where employers pay full time employees 2/3 their rate of pay. This is in effect until December 31, 2020 when the requirements will reset, pending another governmental announcement of emergency requirement, for the subsequent year.

The configuration steps outlined below allow you to track employee emergency leave time through the Leave module.

Pre-Requisites

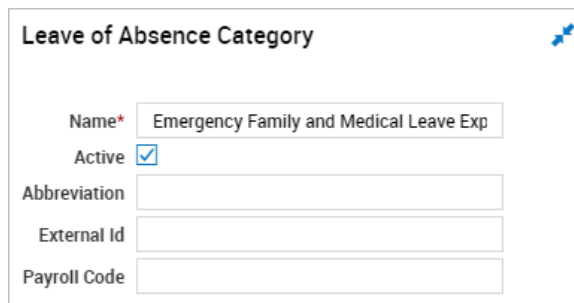

The configuration shown requires the following to be enabled in your company:

- Leave module enabled. This is done in the *Available Functionality* widget when editing your company under *Maintenance > All System Companies > Edit Company* icon for your company.
- Enabling the Leave module may incur additional fees.
- The Leave module is optional and not required for the new legislation.

Step 1: Leave of Absence Categories

Company Settings > Profiles/Policies > Leave of Absence > Categories

Create a *Leave of Absence Category* for *Emergency Family and Medical Leave Expansion Act* (or your name of choice).

The screenshot shows a form titled "Leave of Absence Category" with the following fields:

- Name*: Emergency Family and Medical Leave Exp
- Active:
- Abbreviation:
- External Id:
- Payroll Code:

Step 2: Leave of Absence Reasons

Company Settings > Profiles/Policies > Leave of Absence > Reasons

Create a *Leave of Absence Reason* for *Emergency Leave Regular Rate* and *Emergency Leave Two-Thirds Regular Rate* (or your name of choice). The reasons will be used to indicate the type of pay employees should receive for the first two weeks of the leave period.

The screenshot shows a table titled "Reasons" with the following content:

← Reasons

Rows On Page: 20 (dropdown) | 2 Rows | Refresh Data (button)

Name	
starts with (dropdown)	Emergency
<input type="text"/>	Emergency Leave Regular Rate
<input type="text"/>	Emergency Leave Two-Thirds Regular Rate

Step 3: Leave of Absence Profiles

Company Settings > Profiles/Policies > Leave of Absence > Profiles

Create or edit a *Leave of Absence Profile* for *Emergency Family and Medical Leave Expansion Act* category (or your name of choice). In the *Categories* section of the profile, ensure the category you created is checked.

Leave of Absence Profile

Step 4: Leave of Absence Profile Rules

Company Settings > Profiles/Policies > Leave of Absence > Profiles > View/Edit Rules

Add rules to the *Leave of Absence Profile* for *Emergency Family and Medical Leave Expansion Act* category (or your name of choice).

Waiting Period Rule (Entitlement Category Rule)

Set the *Waiting Period* rule for 30 days using the *Emergency Family and Medical Leave Expansion Act* category (or name of your choice). Use the *Date Hired* for calculating the waiting period.

Settings

Entitlement Time rule is required to follow this rule.

Leave of Absence Category

Use For Calculating Waiting Period

Include Active Service Periods Only

Time Before Employee Can Use Category

Effective From To

Entitlement Time Rule (Entitlement Category Rule)

The *Entitlement Time* rule is required to follow the *Waiting Period* rule. Set this rule to 12 weeks.

The screenshot shows a 'Settings' dialog box for an Entitlement Time Rule. The 'Leave of Absence Category' is set to 'Emergency Family and Medical Leave Expansion Act'. The 'Set' field is '12' with a 'Weeks' dropdown. There is a checked checkbox for 'Clear Previous Entitlement'. The 'Effective From' and 'To' fields are empty with calendar icons.

Expire Leave Time Taken (Balance Category Rule)

Set this rule to expire in 1 year for the *Emergency Family and Medical Leave Expansion Act* category (or name of your choice).

The screenshot shows a 'Settings' dialog box for an Expire Leave Time Taken rule. The 'Leave of Absence Category' is 'Emergency Family and Medical Leave Expansion Act'. The 'Expire Leave Time Taken After' field is '1' with a 'Years' dropdown.

Use Available Time Off (Time Category Rule)

Two *Use Available Time Off* rules need to be configured to indicate the type of pay (regular rate or two-thirds rate) employees should receive prior to using *Emergency Family and Medical Leave* time.

In the first rule, the *Leave of Absence Reason* should be set to *Emergency Leave Regular Rate*. The *Use The Following Time Off Category* setting should be set to use *Emergency Paid Sick Leave/Regular* (or name of your choice) at Regular Rate prior to using Leave time (12 week - 2/3 pay).

Use Available Time Off – Full Rate of Pay

The screenshot shows a 'Settings' dialog box for a 'Use Available Time Off – Full Rate of Pay' rule. The 'Leave of Absence Category' is 'Emergency Family and Medical Leave Expansion Act'. The 'Leave of Absence Reason' is 'Emergency Leave Regular Rate'. The 'Max To Be Paid At This Category' is empty with an 'Hours' dropdown. The 'Use The Following Time Off Category' is 'Regular'. The 'Allow The Time Off Balance To Be Exceeded By' is '0.0' with an 'Hours' dropdown. There are checkboxes for 'Use Time Off Priorities' and 'Check Accruals As Of' (set to 'Run Date'). There are radio buttons for 'Start Date' and 'End Date'. There is a dropdown for 'If Time Off Already Exists For The Day' set to 'Add Difference'. A section titled 'SCHEDULED TIME OFF SETTINGS' contains a checkbox for 'Utilize Scheduled Time Off' (unchecked), a dropdown for 'Up To Next' (set to 'Calendar Day'), and a date field '01/01'. There are two radio buttons: 'Ignore Time Off With Start/End Times' (selected) and 'Convert Time Off With Start/End Times To Bulk'.

Use Available Time Off – Two-Thirds Rate of Pay

In the second rule, the *Leave of Absence Reason* should be set to *Emergency Leave Two-Thirds Regular Rate*. The *Use The Following Time Off Category* setting should be set to use *Emergency Paid Sick Leave/Two-Thirds Regular Rate* (or name of your choice) at Two-Thirds Regular Rate prior to using additional Leave time (12 week - 2/3 pay).
